SwyxIt! Headsets and SwyxIt! USB Handsets

Key benefit of SwyxIt! Headsets

The headset is an ideal solution for a receptionist or 'power user'. Consisting of a headphone and a microphone, it enables the user to make calls and work with the PC at the same time.

Benefits of SwyxIt! USB Handsets

Making calls with the SwyxIt! P230 and P250 handsets is easy and convenient. By connecting the handset to the USB port of a PC or laptop, full on/off hook support is provided and users can take advantage of the PC/laptop keyboard to enter telephone numbers. Critical telephony functions such as call transfer, hold, forward and conference can be easily chosen through the SwyxIt! client graphical user interface so migration from a conventional phone to the USB handset is easy and comfortable.
